

Mission Statement

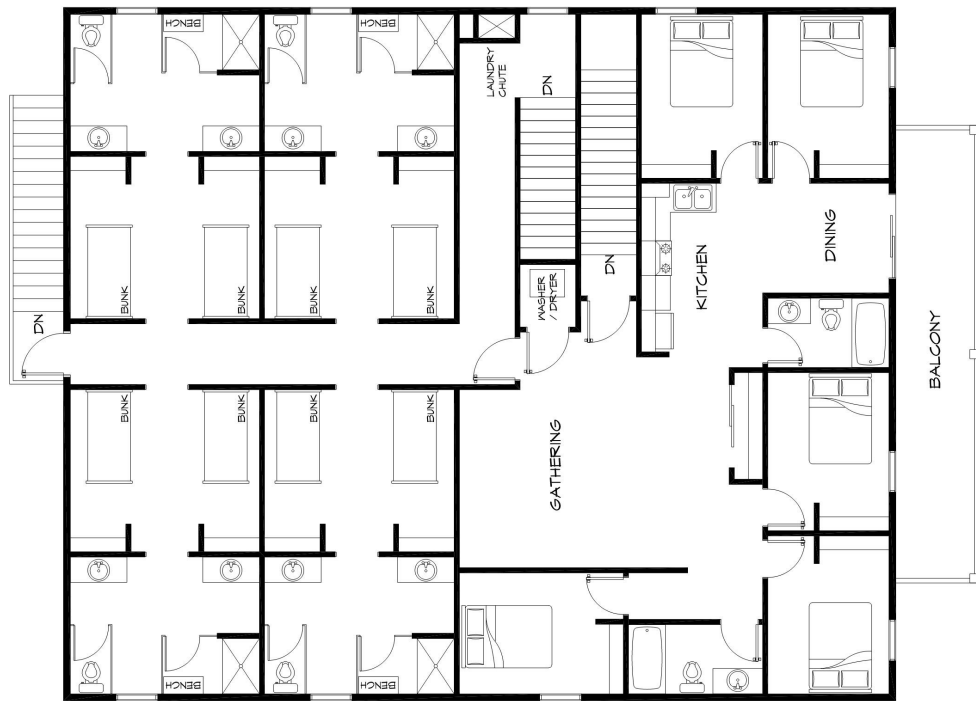

A Christ-centered, residential treatment program that empowers women to address the root causes of life-controlling issues and addictions in order to live productive lives of recovery.

Vision Statement

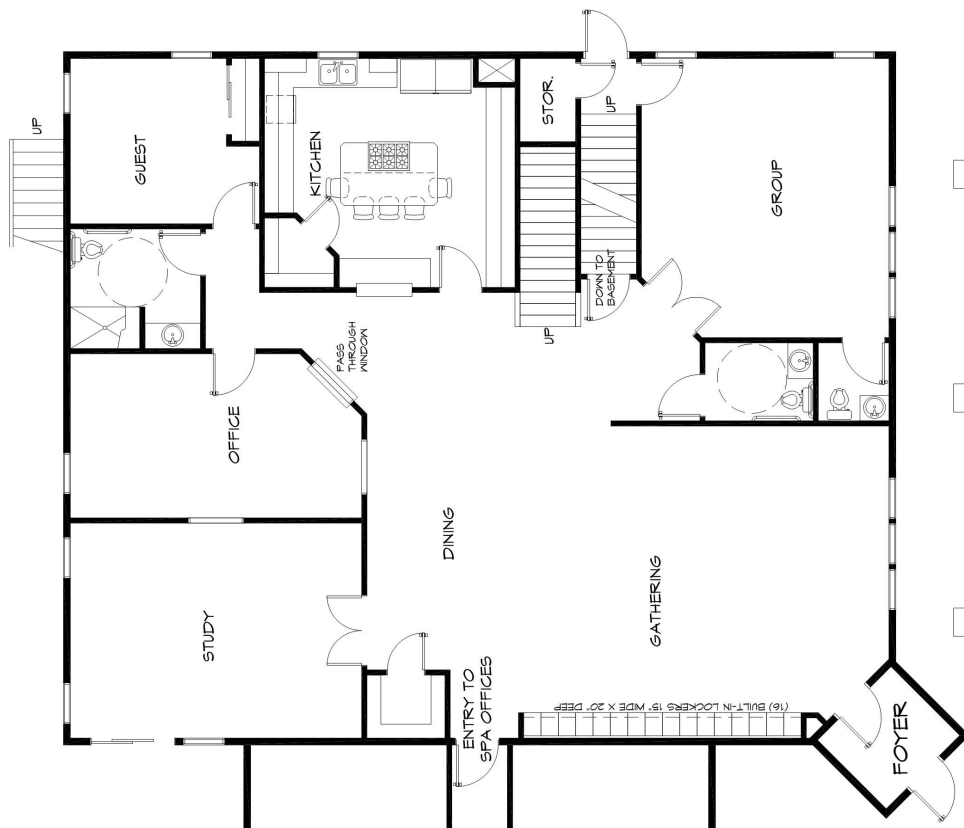

To see women and families delivered from the bondage of life-controlling issues and addictions through the gospel of Jesus Christ and to disciple them into faithful followers of Christ.

Why SPA?

All around us there are women who are broken and wounded from painful life experiences desperately needing to experience a personal relationship with Jesus Christ. We are called to live life alongside them, sharing the love of Christ and extending a heart of compassion. In 2016, 34 participants were asked what life was like prior to entering SPA. This is their story...

Serious situations, but not hopeless!

SPA is responding to this need by providing Christ-centered, residential treatment that helps women discover the hope and freedom found only in our Lord and Savior.

SPA serves approximately 60 women annually.

Who We Are

SPA Women's Ministry Homes is a 12-month residential treatment program that offers women an opportunity to make positive and permanent life changes in a Christ-centered environment. Services are provided through the ministry's residential treatment, transitional housing, and aftercare programs, all of which prepare women to live lives of recovery in relationship with God.

Who We Serve

SPA Women's Ministry Homes provides services to women 18 years and older who are experiencing the impact of destructive behaviors and life-controlling issues such as drug and alcohol addiction, domestic violence, and sexual assault. While our women's experiences are unique, they share a common goal: to better their current situation through the healing and restoration achieved through the power of God.

Why Build?

Challenge	Solution/Benefit
<p>Limited Space</p> <p>Ten women and 4 staff currently occupy a 1,500 sq. ft. home built for a family of four. There is no room for growth!</p>	<p>More Space</p> <p>Building a 6,000 sq. ft. addition to the current home will allow SPA to work with twice as many women.</p>
<p>Fragmentation</p> <p>Services are scattered among 3 homes and a downtown office which creates communication, management, and programming challenges.</p>	<p>Consolidation</p> <p>One comprehensive campus on 4 acres will allow for more efficient oversight of staff, volunteers, ministry programming, and property maintenance.</p>
<p>Limited Services</p> <p>Women on SPA's waiting list are left unattended while they are waiting for the opportunity to join the residential program.</p> <p>Current needs are more than we can meet.</p>	<p>Expansion of Services</p> <p>The new building will have space to include counseling and recovery groups for women and families who are not currently participating in SPA's residential program.</p> <p>More women and families will be served.</p>

"This ministry has had amazing results in delivering hope to women and families for 18 years. Just imagine what they will be able to accomplish if they can expand their services to more people in need!"
